

How To Create an Event

You can create a new event in The Wedding App in two different ways depending on whether you're starting fresh or have already purchased event credits.

Purchase Credits First

1. Tap the menu button (hamburger icon) in the top left corner.
2. Go to **Purchase Credits**.
3. Select the package that best fits your needs.
4. Once purchased, go back to **My Events**.
5. Click **Create Event**.
6. Fill out the prompts to set up your event details.

Create Event First

1. Tap the menu button (hamburger icon) in the top left corner.
2. Go to **My Events**.
3. Click **Create Event**.
4. The app will prompt you to purchase a credit before continuing.
5. Select your desired package, then complete your event setup by following the prompts.

Tips & Tricks

- **For Couples:**

You only need to purchase the Individual Wedding Package, which includes unlimited guests and admins.

- **For Wedding Planners:**

The app offers Credit Packages designed for managing multiple clients or events.

This is a great option if you'll be hosting or organizing several weddings through the app.
