Tips & Tricks

- It's a good idea to **invite your wedding party first** on the app before inviting all other guests. This ensures they RSVP early and are ready to be added to your Wedding Party section.
- You can include **bridesmaids, groomsmen, parents, flower girls, ring bearers, or anyone special** you want to highlight in your celebration.
- Keeping this section updated helps your guests recognize key people in your wedding and makes your event page more personal and engaging.
