

## Tips & Tricks

# Flights, Hotels, Recs & Photo Album

The Wedding App offers several additional features designed to make your guests' experience seamless and interactive — from sharing travel details to posting wedding photos afterward.

### Flights

- Share which **airport** your guests should fly into.
- Guests can **share their own flight details**, including arrival and departure times.
- Especially helpful for **destination weddings** to coordinate shuttles or carpools.

### Hotels

- **Preferred Hotel:** Your recommended place for guests to stay.
- **Nearby Hotels:** Alternative options for different price points or locations.
- Provides clear lodging guidance while offering flexibility.

### Recommendations

- Share **local favorites** or **things to do** during downtime.
- Suggest restaurants, coffee shops, spas, hiking spots, or attractions.
- Helps guests explore the area and enjoy their time outside of wedding activities.

### Photo Album

- Every guest can **create shared albums** and **upload photos**.
- Control access by adjusting **Access Settings**.
- Only **Admins** can **delete photos**.
- Perfect for collecting candid shots and creating a shared digital memory book.

## Tips & Tricks

These features enhance guest engagement and streamline event logistics. Use the Flights section to help coordinate arrivals, the Hotels section to guide accommodations, and the Recommendations to enrich their stay. The Photo Album creates a collaborative space for lasting memories.
