

How To Create The Registry Page

Initial Registry Setup

1. Go to **My Events**.
2. Tap **View Details**.
3. Click on **Registry**.
4. Enable **Custom Notes & Address** option.
 - This option allows you to add a custom note for guests browsing your registry, as well as collect their mailing addresses.
5. Edit the suggested copy (if desired).

Registry Setup: Store Registries

1. To add a registry link from your chosen store, click **Add New Registry**.
 - For **Product Name**, enter the store's name (for example: *Target*, *Crate & Barrel*, or *Amazon*).
 - Paste the **store's registry URL**.
 - If the image that pulls automatically is blurry, you can upload your own custom image.

Registry Setup: Cash Funds

1. To add a **Cash Fund**, click **Cash Fund**.
 - Enter your desired title, such as *Honeymoon Fund*, *New Home Fund*, or anything you like.
 - You can also add a **location** and **image**, then click **Done**.
2. To link your **Venmo** or **Zelle**, click **Link Bank Accounts**.
 - This feature redirects guests directly to your Venmo page or to the email address connected with your Zelle.

⚠ Disclaimer:

The Wedding App **does not connect to or integrate with personal accounts or banking systems**.

It simply provides a **redirect link** to external pages (like Venmo or Zelle) so guests can easily find where to send their contribution.

Tips & Tricks

- Build your full registry **directly through your preferred store** (such as Target, Crate & Barrel, or Amazon).
- Once your registry is created, simply **link that store's registry URL** to your Wedding App registry page — this keeps **all your gift options in one convenient place** for guests to access.
- Add a **custom thank-you message** to make your registry page feel warm and personal.
