

How To Include Your Plus One

We're so glad you're joining the celebration through **The Wedding App!**

If you've been invited with a **plus one**, here's how to confirm and register them correctly so both of you are linked to the same event.

Important Note: Always double-check with the couple to confirm whether you've been **granted a plus one** before proceeding.

Step-by-Step Instructions

1. **Confirm Plus One Status:** First, confirm with the couple that you have been granted a plus one for their event.
2. **Complete Your RSVP:** RSVP "Yes" for yourself through your invitation link or QR code.
3. **Add Your Guest:** After you've RSVP'd, navigate to your **RSVP section** within the app. If a plus one has been granted, you will see an **"Add +1"** button appear.
4. **Select Your Plus One:** Tap **"Add +1"**. This will sync with your phone's contact list, allowing you to select the person you're bringing.
5. **Guest Invitation:** Your plus one will then receive their own unique invitation link to access the wedding details and create their personal profile.
6. **QR Code Invitations (Alternative):** If the initial QR code invitation was specifically addressed to both you and your guest, **both of you should scan** the same QR code to RSVP individually. The couple (or their planner) will then link your profiles in the backend.

Tips & Tricks

Unique Profiles

Every guest, including your plus one, needs to create their own unique profile via their invitation link to access full event details and communicate with others.
